

FROM OUR PATIENTS

We care about what our patients and families experience during treatment and ask for feedback regularly. We are pleased to share what our amazing patients had to say.

“They have been doing a wonderful job. Giving them an A+. Both are wonderful and get more than 5 stars. They have helped me tremendously. They are the best. 1

Patient with stage 4 sacral decubiti

“He is a marvelous doctor. I have been to four hospitals and four rehabilitation facilities and came back with terrible open wounds. Dr. Dubin and Paulino Gonzalez do excellent work. They are caring and patient. Results are astounding. They are 'Angels walking on Earth.'

Patient with stage 4 sacral decubiti

“Very happy with the results. Thrilled with how the wounds are healing so quickly in just 27 days.
